Republican Leader Wins Election Endorsement
National Organization Supports Progressive GOP Women Candidates

WASHINGTON, D.C. -- The nation's largest political fundraising network for progressive Republican women has endorsed the candidacy of Marina Kats for election to the U.S. Congress from Pennsylvania's 13th District.

"The WISH List wholeheartedly endorses Marina's candidacy for Congress," WISH List President Pat Carpenter said. "She is an effective leader who is committed to the basic Republican principles of individual freedoms and responsibilities, a sound economy, limited government, healthy communities, an educated citizenry and a strong and secure nation.

"This election is important and will shape the policies that will affect every citizen in Pennsylvania," Carpenter said. "The WISH List is putting all of our energy and all of our resources toward expanding the ranks of pro-choice Republican women at all levels of government – particularly at the state and local level – across America."

The WISH List is a nationwide organization that recruits, trains, supports and elects pro-choice Republican women candidates for the U.S. Senate, Congress, statewide offices and state and local positions. Since its founding in 1992, The WISH List and its members have provided promising Republican women leaders with nearly \$3.5 million to mount successful campaigns for public office.
